Start Thinking Green in Spring 2012

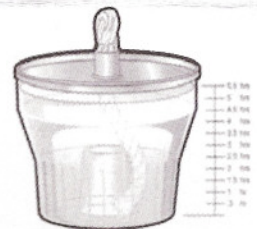

## The Clear Advantage this SPRING!

Spring is right around the corner, and with it comes a new batch of events to prepare. May brings with it Mother's Day, graduations, the Kentucky Derby, not to mention the kick off of wedding season! Make sure you are prepared for all the big events by stocking up on your Blaze fuel to guarantee that your customers have the hottest buffet around.

### Clear Wick 6 hr. burn time

- Polyethylene container eliminates guesswork by letting you see how much fuel remains
- Unique stackable design allows for easy storage and handling
- Patented shape keeps flame away from container if tipped over
- Clear Wick – CW300, 24 per case

### What Our Customers Are Saying...

*"Wow...just three letters, but just what this new product delivers. We used them on our "Rivers of Chocolate" station at a fundraising event this week and they maintain a high temperature and being clear they didn't deflect from our glass block look. I am absolutely thrilled with this product Thank you Blaze Products...another winner!"*
